

Name: _____

Date: _____

Gallons and Gallons

Gallon Guessing Game!

Write your **best guess** for how many gallons each of the following holds. Then compare with the actual average!

Item	Your Guess	Actual Gallons
Bathtub (full)	_____	36–50 gallons
Washing machine (1 load)	_____	25–40 gallons
Kitchen sink (full)	_____	5–8 gallons
Garden hose (5 mins)	_____	15–25 gallons
One toilet flush	_____	3 gallons
Kitchen sink (full)	_____	5–8 gallons
Washing a car at home	_____	40–100 gallons
Dripping faucet (1 day)	_____	About 5 gallons
Water bottle (standard)	_____	0.5 gallons

Total: _____

Discussion:

- What surprised you most about the actual gallon amounts?
- Why is it important to know how many gallons different things use?
